**Wholeness** - The state of complete sanctification - perfect health in all aspects of one’s spirit, soul (mind, will and emotions) and body - only attainable in Heaven. It was God’s original design for us before sin entered the world. (Genesis 2:7)

Our pathway to wholeness parallels our salvation and sanctification process. After salvation, as we become more like Christ, we become more whole in spirit, soul and body.

---
